About IFAT Africa

Growing from strength to strength since its debut in 2015, IFAT Africa, the leading trade fair in sub-Saharan Africa for water, sewage, refuse and recycling, has seen key role players and leaders in the industry, gather to present and find solutions in the environmental technologies space.

South Africa has a unique set of environmental challenges, and IFAT Africa creates the perfect platform for these challenges to be addressed, making it THE event for industry not to be missed.

The fourth edition, which will be held from 02-04 November, 2021 at Gallagher Convention Centre in Midrand, promises to once again deliver high quality exhibitors, supporting programmes, master classes and networking opportunities, attended by industry visitors.

IFAT Worldwide Network

With IFAT as the World's Leading Trade Fair for Water, Sewage, Waste and Raw Materials Management, Messe München is sharing its success story:

A strong trade fair and knowledge transfer through a high-calibre supporting and forum program, as well as the development of young professionals and specialists. In addition to its venue in Munich, IFAT is represented with its own trade fairs in South Africa, Turkey, India and China.

A first of its kind co-location

IFAT Africa, analytica Lab Africa and food & drink technology Africa, premiered for the first time in co-location in 2019, creating the largest industry specific trade fair in Southern Africa, focusing on analysis, laboratory equipment, water treatment and technologies, food and beverage processing, waste management and recycling.

- Creamer Media
- Green Economy Journal
- Interact Media Defined

2021 highlights and overview

Benefits and what to expect

High calibre supporting programme and panel discussions

Master classes presented by industry

Interactive corner and technical sessions

Start up area

Exciting social and networking opportunities

3rd University Challenge

Young Professionals Forum

Innovation Corner & Awards

Exposure to key players and decision makers

New segment focus: Powered by IFAT

Supporting programme highlights

WATER & SEWAGE

- Sustainable Development Goals and the water sector
- Water management: Resource management and climate change
- Desalination: Adapting modern technologies to regional and environmental requirements
- Case Study: Best practice projects (waste/wastewater)

WASTE & RECYCLING

- Zero-waste-city - reduce, recycle, sustainable
- The Alliance for Development and Climate: The potential contribution of the waste and recycling industry to climate protection
- The circular economy: from theory to practice - A recyclers' perspective
- Smart Waste and the Smart Barrel - Digital Solutions for Waste
- Collection and Transport

SUSTAINABILITY

- Biowaste to Biogas
- Creating effective solar energy distribution models for low income communities in Africa
- Access to finance for energy projects
- Energy from waste: Appropriate approaches for Southern Africa
- The Sustainable Development Goals (SDGs) in corporate practice

Reasons to exhibit

Africa's leading trade fair for water, sewage, refuse and recycling

Gathering place for key players in the environmental technologies space

Comprehensive industry product range

High calibre supporting programme

Meeting hub for decision-makers

Three shows in one venue

What our exhibitors have to say

Bernice Smit, Business Development Director, Vovani:

"Good quality inquiries and leads were received. The networking opportunities to engage with international giants was extremely valuable to us. We also experienced a vast increase in the numbers of visitors who attended the event this year. Overall, we felt that this year was better than the last."

Nicole Meyer, Marketing, Kaeser Compressors:

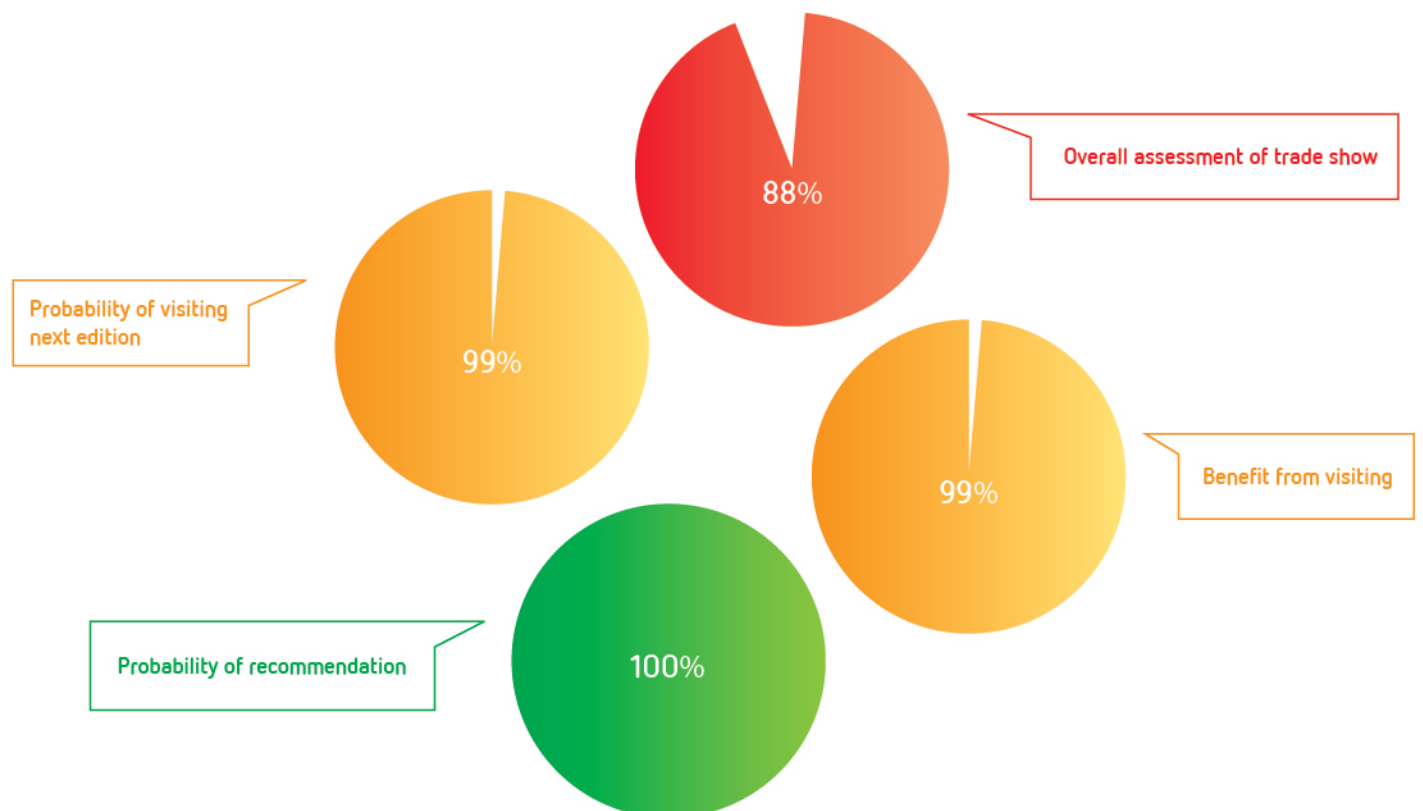

"Overall, this year's show was much bigger and much better than it has been in the past. We found all our potential customers were accessible at this show, both in the other exhibitors and in the visitors who attended. The co-location was beneficial in that it increased foot traffic in general as well as bringing together a great cross section of guests across sectors."

Annejan Visser, Engineer, Quality Filtration Systems:

"We received an exceptionally high calibre of visitors, including visitors from the co-located shows. We felt that collocating all three events was a fantastic idea because for us personally, our business works hand in hand with many of the industries in the complimentary sectors. We managed to gain valuable interest and leads from across sectors."

Feedback from our visitors

2021 layout overview

About the venue

Gallagher Convention Centre is the premier events venue in Gauteng. Established in 1993, Gallagher is a benchmark for the events industry.

The 32-hectare property offers 27 multi-purpose venues which cater to a variety of events such as conferences, dinners, luncheons, cocktails, exhibitions and private events. Gallagher Convention Centre offer unmatched service and quality.

Conveniently located in Midrand, between Johannesburg and Pretoria, Gallagher is known for its distinctive character, style and superior service offering.
