

# 8<sup>th</sup> University Challenge India

Thursday 17 October 2024 from 13:00 to 17:00

Friday 18 October 2024 from 10:30 am to 3:30 pm, including Award Ceremony

## Under the auspices of DAAD (German Academic Exchange Service) A competition for the engineering student talents

Come and participate in the 8<sup>th</sup> UNIVERSITY CHALLENGE INDIA (UCI). 10 teams (3 people per team) from universities in India have the chance to compete with each other in different disciplines:

### Task 1:

#### IWRM – Integrated Water Resources Management

Infrastructure measurements from water management, waste management and energy management have to be combined using DWA environment cards.

### Task 2:

#### Reporting

Student teams prove their skills in researching and gathering information at the fair, focusing on a fictitious employer. The accumulated knowledge needs to be applied by writing a reporting with a pre-defined focus. Further information follows on-site.

### Target Group/Requirements

The participants should be Bachelor or Master students in the disciplines water management, waste management, civil engineering, environmental engineering, or related disciplines. Each team consists of 3 students.

### Prize

Attractive prizes await the three best teams!
