

# „Introduction to the German Water Industry“

Information event for foreign delegations powered by DWA

Presentation language: English

Are you new to the branch or wish to receive a first overview of the German water sector? Then you are in the right hands with the German Association for Water, Wastewater and Waste (DWA).

Take yourself 1.5 hours and you will get an insight in strength, potentials and challenges of the German water market, facts and figures about drinking and waste water, legal bases, standards, technologies, human resources, benchmarks and access strategies. In the diversity of Germany there is creativity – but also confusion. We provide clarity on the German water industry.

Join one of our appointments for foreign IFAT guests, junior staff and career changers in English language. If you come in larger groups, please register or ask for individual appointments in German or in Spanish.
